BACKGROUND AND IMPLEMENTATION

The Education and Care Services National Regulations 2011 define an emergency in relation to an education and care service as any situation or event that poses an imminent or severe risk to the persons at the service premises e.g. flood, fire or a situation that requires the service premises to be locked down.

Emergency and Evacuation Management Planning

Emergency and evacuation policies and procedures are based on risk assessments that identify potential emergencies relevant to the service (Regulation 97). The centre implements the Emergency Management Plan (EMP) as part of everyday operations.

Bubup Womindjeka Family and Children's Centre has a duty of care to the children, staff, volunteers, students, visitors and all attending the service. Under the Occupational Health and Safety Act 2004, the centre provides a healthy and safe environment for all persons who access the centre's facilities and/or programs. Evacuation drills are carried out on a quarterly basis, using assigned exit routes and assembly areas and staff follow all emergency evacuation procedures. For a fire, the alarm alerts all staff to the danger; it also registers at the Metropolitan Fire Brigade. On hearing the alarm, or on being advised to evacuate for any other reason, staff members, parents and students on duty, stop all activities immediately and gather children together. Staff have designated positions at the head and rear of the line and children are evacuated via the nearest safe exit to the selected assembly area where a roll call is carried out. If safe to do so, the doors to the centre are closed after checking the bathrooms, staff room, kitchen and offices prior to leaving the building.

All staff, parents and students on duty are required to become familiar with these procedures and the Evacuation Diagram Exit Plans that are displayed throughout the centre and the Area Map for emergencies and evacuation. The Evacuation Diagram Exit Plans and Area Map indicate the available exit routes and the direction of travel to the assembly areas.

Assembly Areas

Each rooms Primary Lock Down Assembly Point is their own room. If this area becomes untenable due to smoke or other problems, then the Primary Off-Site Assembly Point is used.

Primary Off-Site Assembly Point is located in Lagoon Reserve. Exit for Rooms 3-6 via back gates in EYP playground. Exit for rooms 1,2, 7 and 8 is via kindergarten playground gates.
